PROJECTS

My Portfolio

Role		Web application architecture
Responsibilities		Create a dynamic website using JAM Stack
Team Size		1
Platform Used		Reactjs, Gatsby, Css-in-js, Contentful

Description:

My first portfolio website I designed and built in 2018. I learned quite a bit about Advanced Javascript, Reactjs, Gatsby, Styled-component and SEO. Since then, I think my web development and design skills have improved immensely.

Trucktion

Role		Application Developer
Responsibilities		Create a pixel perfect UI design, Cross browser compatibility and RWD
Team Size		8
Platform Used		Reactjs, Redux, JQuery, Semanti UI, PostCss

Description:

Trucktion is helps to connect fleet owner and load owner, its pick up and delivery load from one place to another place. My role has to create UI and development for both users and create admin panel to monitoring the fleet owner, load owners, total load is in active process and employess management

TD Script (TDS)

Role		Application Developer
Responsibilities		Create a pixel perfect UI design, Cross browser compatibility and RWD
Team Size		5
